Analysis of Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice. The issues discussed in the Issues and Decision Memorandum are the likelihood of continuation or recurrence of dumping, and the magnitude of the margins of dumping likely to prevail if this order were revoked. The Issues and Decision Memorandum is a public document and is on file electronically via the Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit, Room B8024 of the main Commerce building. Final Results of Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, we determine that revocation of the antidumping duty order on diffusion-annealed nickel-plated flat-rolled steel products from Japan would be likely to lead to continuation or recurrence of dumping at weighted-average margins up to 77.70 percent.

Administrative Protective Order

This notice also serves as the only reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

SUPPLEMENTARY INFORMATION:

Background

Commerce published the *Preliminary Results* of the administrative review in the **Federal Register** on December 21, 2018.¹ For the events that occurred since Commerce published the *Preliminary Results*, see the Issues and Decision Memorandum.² Commerce conducted this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018, through the resumption of operations on January 29, 2019.³ The revised deadline for the final results was May 30, 2019. On May 24, 2019, we extended this deadline to July 29, 2019.⁴

Changes From the Preliminary Results

Based on our analysis of the comments received, Commerce made certain revisions to the rates assigned to Sino-Maple, the China-wide entity, and the non-examined, separate rate respondents. The Issues and Decision Memorandum contains descriptions of these revisions.

Final Determination of No Shipments

In the *Preliminary Results*, Commerce determined that certain companies did not have shipments of subject merchandise during the POR. Although we received no information to contradict our preliminary determination with respect to those companies, based on information received since the *Preliminary Results*, we determine that two additional companies, Jiangsu Keri Wood Co., Ltd. and Dalian Guhua Wooden Product Co. Ltd., did not have shipments during the POR.⁷ Therefore, for these companies (listed in Appendix II), we will issue appropriate instructions that are consistent with our "automatic assessment" clarification.⁸

Separate Rates

In the *Preliminary Results*, we determined that Jiangsu Senmao, Sino-Maple, and several additional companies who were not selected for individual review demonstrated their eligibility for separate rates, and we continue to do so in these final results. In addition, we determine that Guangdong Yihua Timber Industry Co., Ltd. is eligible for a separate rate.⁹

⁷ See the Issues and Decision Memorandum at Comments 9 and 14.

⁸ See Non-Market Economy Antidumping Proceedings: Assessment of Antidumping Duties, 76 FR 65694 (October 24, 2011) (*Assessment Notice*); see also "Assessment Rates" section below.

⁹ See the Issues and Decision Memorandum at Comment 6.

Rate for Non-Examined Separate Rate Respondents

The statute and our regulations do not address the establishment of a rate to be assigned to respondents not selected for individual examination when we limit our examination of companies subject to the administrative review pursuant to section 777A(c)(2)(B) of the Act. Generally, we look to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for respondents not individually examined in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally "an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely {on the basis of facts available} (FA)."

Accordingly, Commerce's usual practice in determining the rate for separate-rate respondents not selected for individual examination, has been to average the weighted-average dumping margins for the selected companies, excluding rates that are zero, *de minimis*, or based entirely on AFA.¹⁰ However, when the weighted-average dumping margins established for all individually investigated respondents are zero, *de minimis*, or based entirely on facts available, section 735(c)(5)(B) of the Act permits Commerce to "use any reasonable method to establish the estimated all-others rate for exporters and producers not individually investigated, including averaging the estimated weighted average dumping margins determined for the exporters and producers individually investigated."

Furthermore, Congress, in the SAA, stated that when "the dumping margins for all of the exporters and producers that are individually investigated are determined entirely on the basis of the facts available or are zero or *de minimis* . . . {t}he expected method in such cases will be to weight-average the zero and the *de minimis* margins and margins determined pursuant to the

¹⁰ See *Longkou Haimeng Mach. Co. v. United States*, 581 F. Supp. 2d 1344, 1357–60 (CIT 2008) (affirming Commerce's determination to assign a 4.22 percent dumping margin to the separate-rate respondents in a segment where the three mandatory respondents received dumping margins of 4.22 percent, 0.03 percent, and zero percent, respectively); see also *Certain Kitchen Appliance Shelving and Racks from the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 74 FR 36656, 36660 (July 24, 2009).

facts available."¹¹ For the final results of this review, we continue to determine the estimated dumping margin for each of the individually examined respondents to be zero or based entirely on AFA. Thus, we assigned to all eligible non-selected respondents the simple average of the separate rates assigned to Jiangsu Senmao and Sino-Maple.¹²

Final Results

For the companies subject to this review, including the China-wide entity and companies which established their eligibility for a separate rate, Commerce determines that the following weighted-average dumping margins exist for the period December 1, 2016 through November 30, 2017:

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. We intend to issue assessment instructions to CBP 15 days after the date of publication of these final results of review.

For Jiangsu Senmao, which has a weighted-average dumping margin of zero, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. For entries that were not reported in the U.S. sales databases submitted by the company individually examined during this review, Commerce will instruct CBP to liquidate such entries at the China-wide rate. As the China-wide entity and Sino-Maple's estimated dumping margins continue to be based on AFA, we will instruct CBP to apply an *ad valorem* assessment rate of 85.13 percent to all entries of subject merchandise during the POR that were produced and/or exported by those entities.

For the respondents which were not selected for individual examination in this review and which qualified for a separate rate, the assessment rate will be equal to 42.57 percent, the simple average of the separate rates we assigned to Jiangsu Senmao and Sino-Maple.

Consistent with Commerce's assessment practice in non-market economy cases, for the companies which Commerce determined had no shipments of the subject merchandise, any suspended entries made under those exporters' case numbers (*i.e.*, at the exporters' rates) will be liquidated at the China-wide rate.¹³

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results of administrative review for shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For companies that have a separate rate, the cash deposit rate will be that established in these final results (except, if the rate is zero or *de minimis*, then no cash deposit will be required); (2) for previously investigated or reviewed Chinese and non-Chinese exporters that received a separate rate in a prior segment of this proceeding, the cash

¹³ For a full discussion of this practice, see *Assessment Notice*.

deposit rate will continue to be the existing exporter-specific rate; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the China-wide entity; and (4) for all non-Chinese exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These cash deposit requirements, effective upon publication of these final results, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).

Dated: July 29, 2019.

Deputy Assistant Secretary for Enforcement and Compliance.
